

JOB DESCRIPTION

Position Title: Entry to Intermediate Level Gas Plant Operator

Location: Kaybob North Plant, Fox Creek, Alberta

THE POSITION:

As a member of the North Kaybob Operations Team, you will be based at the North Kaybob Gas Plant, 17 km north of Fox Creek. The position will perform entry to intermediate level operating assignments on plant equipment and maintenance of a safe working environment within the gas processing facility.

The North Kaybob Gas Plant is a sweet/sour gas processing facility capable of handling up to 5000 e3m3/day, consisting of inlet separation, compression, dehydration, refrigeration, amine sweetening, condensate stabilization.

QUALIFICATIONS:

- ✓ Technical diploma from NAIT/SAIT (or relevant diploma/degree from an accredited institution) and/or a minimum 4th Class Steam Ticket
- ✓ Previous applicable experience related to Natural Gas Plant Processing
- ✓ Strong commitment to Health, Safety and the Environment
- ✓ Self-started who is able to work independently with a minimum of supervision
- ✓ Strong team player with proven communication, problem solving and decision making skills
- ✓ Highly organized, reliable individual with attention to detail
- ✓ Valid H₂S, WHMIS, TDG and First Aid certificates are beneficial
- ✓ Clean driving record

PHYSICAL DEMANDS/REQUIREMENTS:

- ✓ Must be able to work a 12-hour rotating shift schedule
- ✓ Must be physically able to perform all components of this position
- ✓ Must reside in the Fox Creek area

Interested candidates are invited to forward their resumes in confidence to Trilogy's Human Resources Department at the following email address: resumes@trilogyenergy.com.

We thank all applicants for their interest, however only those considered for an interview will be contacted.
